### QUESTION 1

You need to recommend changes to the Lync Server 2013 infrastructure to support the planned changes for federation.

Which two changes should you include in the recommendation? (Each correct answer presents part of the solution. Choose two.)

- A. In the public DNS zone, create a new alias (CNAME) record named sipfederation.contoso.com.
- B. In the public DNS zone, create a new service location (SRV) record named \_sipfederationtls.\_tcp.contoso.com.
- C. Deploy a hardware load balancer to the perimeter network.
- D. Deploy a Director to the perimeter network.

Correct Answer: BC

---

### QUESTION 2

You need to ensure that the Miami users can use a five-digit extension when they call the Los Angeles users.

What should you include in the normalization rule?

To answer, configure the appropriate match pattern and translation pattern in the dialog box in the answer area.

Hot Area:

The screenshot shows a dialog box titled "Answer Area" with a table for configuring normalization rules. The table has three columns: "Normalization rule", "Match pattern", and "Translation pattern". The "Normalization rule" column contains "Internal Los Angeles". The "Match pattern" column has a dropdown menu with four options: `^1\d{3}$`, `^2\d{4}$`, `^3\d{4}$`, and `^3\d{5}$`. The "Translation pattern" column has a dropdown menu with four options: `+1$1`, `+1310$1`, `+1310555$1`, and `+555$1`. A red watermark "www.pass4it.com" is visible across the table.

Normalization rule	Match pattern	Translation pattern
Internal Los Angeles	<input type="text" value="^1\d{3}\$"/>	<input type="text" value="+1\$1"/>
	<input type="text" value="^2\d{4}\$"/>	<input type="text" value="+1310\$1"/>
	<input type="text" value="^3\d{4}\$"/>	<input type="text" value="+1310555\$1"/>
	<input type="text" value="^3\d{5}\$"/>	<input type="text" value="+555\$1"/>

Correct Answer:

Answer Area		
Normalization rule	Match pattern	Translation pattern
Internal Los Angeles	<input type="text"/> <input type="text"/> <input type="text"/> <input checked="" type="text"/> <input type="text"/>	<input type="text"/> <input type="text"/> <input checked="" type="text"/> <input type="text"/>

**QUESTION 3**

You have a Lync Server 2013 infrastructure.

You have one Enterprise Edition pool named pool.contoso.com. Enterprise Voice is enabled for all users.

You have a PSTN gateway named mg1.contoso.com that does not support secure signaling. The Encryption support level of the global trunk configuration is set to Not Supported.

You add a second PSTN gateway named mg2.contoso.com. The SIP General parameters for mg2.contoso.com are configured as shown in the following table.

Setting	Value
SIP Transport Type	TLS
SIP UDP Local Port	5,060
SIP TCP Local Port	5,060
SIP TLS Local Port	5,067
Enable SIPS	Disable

On mg2.contoso.com, you generate and install a certificate from an internal certification authority (CA).

You need to ensure that Lync Server 2013 can use both PSTN gateways to make calls on the PSTN.

Which four actions should you perform?

To answer, move the four appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions	Answer Area
From the Topology Builder, create a new PSTN gateway.	<p>www.Pass4Lead.com</p>
Create a new trunk configuration for mg2.contoso.com and set the Encryption support level to <b>Not Supported</b> .	
Publish the topology.	
Add the trunk to the existing voice routes.	
Set the Encryption support level of the global trunk configuration to <b>Required</b> .	
Create a new trunk configuration for mg2.contoso.com and set the Encryption support level to <b>Required</b> .	

Correct Answer:

Actions	Answer Area
	From the Topology Builder, create a new PSTN gateway.
Create a new trunk configuration for mg2.contoso.com and set the Encryption support level to <b>Not Supported</b> .	Publish the topology.
	Create a new trunk configuration for mg2.contoso.com and set the Encryption support level to <b>Required</b> .
	Add the trunk to the existing voice routes.
Set the Encryption support level of the global trunk configuration to <b>Required</b> .	

QUESTION 4

Your company has a Lync Server 2013 infrastructure and a Microsoft Exchange Server 2010 Service Pack 2 (SP2) organization.

The Lync Server 2013 infrastructure has Enterprise Voice enabled and uses a global fourdigit dial plan.

The Exchange Server organization has Unified Messaging (UM) enabled and uses a fourdigit UM dial plan named DialPlan1. All dialing restrictions are set to allow All.

You need to ensure that only the users in the research department can use the Play on Phone feature.

Which two actions should you perform? (Each correct answer presents part of the solution. Choose two.)

- A. Modify the default UM mailbox policy.
- B. Modify DialPlan1.
- C. Create a new hunt group.
- D. Create a new UM mailbox policy.
- E. Create a new UM dial plan.

Correct Answer: AD

---

#### **QUESTION 5**

Your company has a Microsoft Office 365 subscription. The company uses Microsoft Lync Online.

You need to ensure that Lync Online users can use dial-in conferencing. The solution must minimize costs.

What should you do?

- A. Deploy an Edge Server and add a hosting provider to the server.
- B. Deploy an Edge Server and configure the A/V Edge service on the server.
- C. Deploy an A/V Conferencing pool.
- D. Set up an account with a third-party audio conferencing provider.

Correct Answer: D

---

#### **QUESTION 6**

You need to configure the second phone number for the executives. The solution must meet the business requirements. What should you use?

- A. The Lync Server Control Panel

- B. The Set-CsUser cmdlet
- C. The Set-CsAdUser cmdlet
- D. The Topology Builder

Correct Answer: B

---

#### **QUESTION 7**

Your company has a Microsoft Office 365 subscription and uses Microsoft Lync Online.

After a long network outage, some users reports that they cannot sign in to the Microsoft Lync client and they receive the following error message:

"Cannot sign in to Lync. You may have entered your sign-in address, user name, or password incorrectly, or the authentication service may be incompatible with this version of the program. If your sign-in information is correct and the problem

persists, please contact your system administrator."

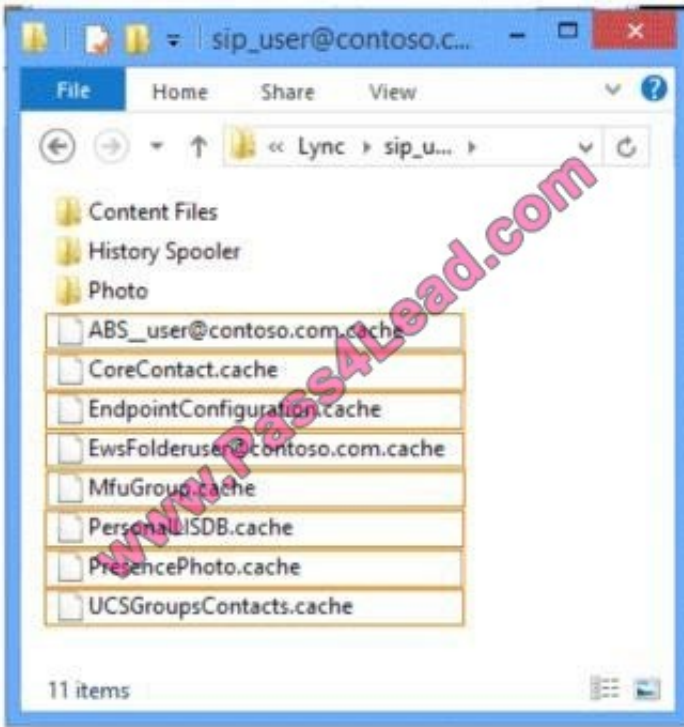

You confirm that other users can sign in successfully.

You need to ensure that all of the users can sign in to Lync Online.

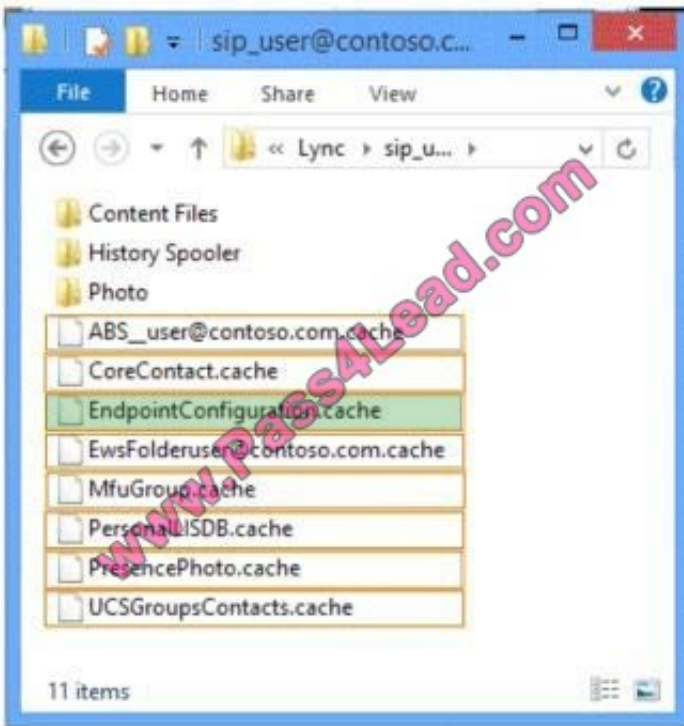

Which file should you delete on the users\' client computer?

To answer, select the appropriate file in the answer area.

Hot Area:

Correct Answer:

**QUESTION 8**

You need to configure UM to meet the UM requirements.

Which UM component should you use to meet each requirement?

To answer, drag the appropriate components to the correct requirements in the answer area. Each setting may be used once, more than once, or not at all. Additionally, you can split bar between panes or scroll to view content.

Select and Place:

Components	Answer Area
an auto attendant	All users must be able to use the Play on Phone feature in Microsoft Outlook. <span>Component</span>
a dial plan	UM administrators must be able to configure calls to be redirected to external phone numbers. <span>Component</span>
a UM IP gateway	Users must be prevented from navigating the voice mail system menu by using their voice. <span>Component</span>
a UM mailbox policy	
a UM mailbox setting	

Correct Answer:

Components	Answer Area
an auto attendant	All users must be able to use the Play on Phone feature in Microsoft Outlook. <span>a UM mailbox policy</span>
	UM administrators must be able to configure calls to be redirected to external phone numbers. <span>a dial plan</span>
a UM IP gateway	Users must be prevented from navigating the voice mail system menu by using their voice. <span>a UM mailbox setting</span>

QUESTION 9

You need to prepare the environment for the planned Lync Online solution of the contractors. The solution must meet the business requirements and technical requirements. What two technologies should you deploy? (Each correct answer presents part of the solution. Choose two.)

- A. Active Directory Rights Management Services (AD RMS)
- B. Active Directory Lightweight Directory Services (AD LDS)
- C. The Inter-Organization Replication tool
- D. Active Directory Federation Services (AD FS) 2.0
- E. Microsoft Online Services Directory Synchronization
- F. Microsoft Online Services Sign-in Assistant

Correct Answer: DE

---

#### **QUESTION 10**

You need to create a rule to meet the technical requirements for international dialing from the SIP trunk in the New York office. Which type of rule should you create?

- A. Called number translation
- B. Calling number translation
- C. Dialing
- D. Normalization

Correct Answer: A

---

#### **QUESTION 11**

You need to implement a solution to meet the phone number requirements.

Which four actions should you perform?

To answer, move the four appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions	Answer Area
Create two announcement number ranges.	
Import two announcement files.	
Create two announcements.	
Modify the TEL URI of the users.	

Correct Answer:

Actions	Answer Area
	Import two announcement files.
	Create two announcements.
	Create two announcement number ranges.
	Modify the TEL URI of the users.

**QUESTION 12**

You plan to modify the firewall in the Montreal office that connects to the Internet.

You need to implement the inbound firewall rules to meet the security requirements for inbound A/V connections.

Which rules should you implement? (To answer, configure the appropriate firewall rules in the answer area.)

Hot Area:

Rule	Source IP	Source Port	Destination IP	Destination Port
Rule1	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            10.0.1.1            131.107.1.1            131.107.1.2            ANY         </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            TCP 443            TCP 50,000 to 59,999            UDP 3478            ANY         </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            10.0.1.1            131.107.1.1            131.107.1.2            ANY         </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            TCP 443            TCP 50,000 to 59,999            UDP 3478            ANY         </div>
Rule2	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            10.0.1.1            131.107.1.1            131.107.1.2            ANY         </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            TCP 443            TCP 50,000 to 59,999            UDP 3478            ANY         </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            10.0.1.1            131.107.1.1            131.107.1.2            ANY         </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            TCP 443            TCP 50,000 to 59,999            UDP 3478            ANY         </div>

Correct Answer:

Rule	Source IP	Source Port	Destination IP	Destination Port
Rule1	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            10.0.1.1            131.107.1.1            131.107.1.2  <b>ANY</b> </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            TCP 443            TCP 50,000 to 59,999            UDP 3478  <b>ANY</b> </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            10.0.1.1  <b>131.107.1.1</b>            131.107.1.2            ANY         </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>  <b>TCP 443</b>            TCP 50,000 to 59,999            UDP 3478            ANY         </div>
Rule2	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            10.0.1.1            131.107.1.1            131.107.1.2  <b>ANY</b> </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            TCP 443            TCP 50,000 to 59,999            UDP 3478  <b>ANY</b> </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            10.0.1.1  <b>131.107.1.1</b>            131.107.1.2            ANY         </div>	<div style="border: 1px solid black; padding: 2px;"> <input type="text"/>            TCP 443            TCP 50,000 to 59,999  <b>UDP 3478</b>            ANY         </div>
